

TC**"Never Like This"**Visit "[Never Like This](#)" on MotoLyrics.com

I don't know some parts of the song, cause i can't really
hear what their's saying
and these might not be the exact lyrics
please feel free to correct it
this is the best i can do

TC - Never Like Before

Let's take it back when we first met
Didn't know you but I saw you running with your friends
And gotta make a move,
Because it was something that I like
Something about your smile
You was the girl of my dreams
And I know what you did to me

The other girls would call me
But I wouldn't even call back
And you got me stuck on you
You was the one I was tryna have
I know what I'm feeling
To young to be zoning
This is too much for me
I think we need time to breathe

You told me last night
You believe him every time
I thought you have a mind
But now I see whats happening
I know that we no longer play games
Seems like you won't change your ways
Looking for other games
I guess you didn't know that

The other girls would call me
But I wouldn't even call back
And you got me stuck on you
You was the one I was tryna have
I know what I'm feeling
To young to be zoning
This is too much for me

I think we need time to breathe

(â€¦..???)

Now what you did what you did

I can't forgive or forget

That's too late for us

It will never be like it before (never like it was before,
Never like it was be for, never like it was before, never
like it was before) x2

â€¦.

(â€¦..???)

Now what you did what you did

I can't forgive or forget

That's too late for us

It will never be like it before (never like it was before,
Never like it was be for, never like it was before, never
like it was before)â€¦â€¦
