It's over and done
We said our goodbyes
Thought I wouldn't have to see your face again
But it didn't happen
The way that I planned it
Now it's like I'm handling with drugs
And I can not shake it
This girl is bad
I'm an addict for her yeah
Can't get enough of her yeah
She's irresistible
This girl is bad
I'm an addict for her yeah
Girl my heart's racing I'm phasing
Like boom boom boom boom boom
She knows

She knows what she's doing
This girl is vicious
I know her she's a drug, she's a drug
She's a drug, she's a drug
This girl is consuming me
Slowly taking control of me
She's a drug, she's a drug
She's a drug, she's a drug
She's a drug, drug
And I can't get away from her
She's a drug, drug
It's hard to break away she's a drug

It's getting old
She's back over my place
Uninvited knocking in my front door
Saying that me and now
You want me again
So seductively I couldn't resist
This girl is bad
I'm an addict for her yeah
Girl my heart's racing, I'm phasing
Like boom boom boom boom boom
She knows

She knows what she's doing
This girl is vicious
I know her she's a drug, she's a drug
She's a drug, she's a drug
This girl is consuming me
Slowly taking control of me
She's a drug, she's a drug
She's a drug, she's a drug
She's a drug, drug
And I can't get away from her
She's a drug, drug
It's hard to break away she's a drug

Just check me in
Better check me in
Please, check me in
To rehab
Tried it on my own
But I need help
Someone help me
Hurry up cause my heart is beating
Like Boom Boom Boom
She's a drug

She knows what she's doing
This girl is vicious
I know her she's a drug, she's a drug
She's a drug, she's a drug
This girl is consuming me
Slowly taking control of me
She's a drug, she's a drug
She's a drug, she's a drug
She's a drug, drug
And I can't get away from her
She's a drug, drug
It's her to break away from her
X2

I gotta break away from her
