

Fitness, The "Dance This"

Visit "[Dance This](#)" on MotoLyrics.com

Put antibiotics on your heart,
And make those awful things go away,
Killer bacteria that starts in your mind,
And never goes away

Infected by emotions,
I don't want to stay,
Infected by emotions,
I don't want to go away.

You're at your family reunion
You've got a rose in your lapan (?)
You're looking for some action,
She said, and she said, and she said,
and she said, and she said

We are communicating,
We are communicating,
We are communicating,
We are communicating,
We are communicating,
Using our new language
We are communicating,
Using our new language
We are communicating,
Using our new language
