I lost all love over you yeah
But give it a while and I'll feel it
Might have the work and the money
Just when I thought I had somebody
The pressure is getting to me
I need a way out I get back in
Whatever it is that I'm thinking
You don't even care to be listening

But whenever you go to the world
I could love you just a little bit more
But whenever you go to the world
I could love you just a little bit more

It's late I'm awake and I'm missing
Trying so hard to forget it
I'm pushing it down to the bottom
I'm making it look like it's nothing
I'll never pick anything easy
I don't like the way that I leave it
Losing my page for the last time
'Cause I only remember the first time

But whenever you go to the world
I could love you just a little bit more
But whenever you go to the world
I could love you just a little bit more

You know I've never never never
No I've never met a girl like you before
No I've never never never
Oh I've never met a girl like you before

But I'm thinking always
I'm always thinking
If we had one day
One more meeting

But whenever you go to the world
I could love you just a little bit more
But whenever you go to the world

I could love you just a little bit more

But whenever you go to the world
I could love you just a little bit more
But whenever you go to the world
I could love you just a little bit more
