Running in the race, sounds familiar
I'm taking back my place, when I had his paid for
I'm back into the arms, cross the ocean
Now money with your charms
Running in the race, pace to know ya
I'm taking back my place, when I had his paid for
I back into the arms , cross the ocean
I know what I want

I didn't know what to do
'Till you walked through the door
I didn't know how to act
'Till you walked through the door

You'll never want any others
Because we make good lovers
You'll never want any others
Because we make good lovers

Running in the race, sounds familiar
I'm taking back my place, What I had is paid for
I'm back into the arms, I cross the ocean
Im all in with you charms
Running in the race, Pace to know ya
Im taking back my place, What I had is paid for
I'm back into the arms, I cross the ocean
I know what I want

I didn't know what to do
'Till you walked through the door
I didn't know how to act
'Till you walked through the door

You'll never want any others
Because we make good lovers
You'll never want any others
Because we make good lovers
