oh we all have gypsy blood within our veins
and i can't stay too long at the same place.
so i laughed it life to tie me down
and i'm the searching kind i must get round.
i have been to every corner in the world
found the passion of many different girls
i enjoyed a sight of paris in the spring
was a beggar but i always felt a king
when i hear the cold wind calling my name,
it the time that must i go
though it hurts we have to part
cause my
life's a traveling show and i've got a spanish heart
we all got a master plan that guides us.
we all have a heart that leads the way
we all have a dreams memories of yesterday
it's the time that i must go though it hurts we have to
part.
cause my
life's a traveling show and i've got a spanish heart
