I know I'll never be beautiful  
But you kissed me once, in the sun  
I know I'll never be loveable  
But you made me think I was wrong

And you say: "it doesn't matter,"  
But I want to scream: "it does!"  
You made our little dream shatter  
But oh, what a dream it was

I could've just run away with you  
But you didn't want me along  
I spent my one happy day with you  
But when I woke up, you were gone

And I always knew you were faking  
The little moon-beam that was us  
And I wish I'd never awakened  
And lived in a dream  
Because oh, what a dream it was
