You left me shadows
Etched on the wall
You don't hear my whisper
And I'm deaf from your call

Dream your lie in your tainted sun
Tell me I'm right when I'm left for dead
I want to see you come in
Before I give in to you

You left me echoes
Footsteps in the hall
You marked the borders
And I built the walls

Don't be scared don't be scared
You can face the truth of it all
Don't be scared don't be scared
If you can't bear the weight of it all

You hear my whisper
There's no doubt at all
You walk round the borders
I'm stuck with the walls
