"Still Around"

Visit "[Still Around](#)" on MotoLyrics.com

I love the breeze

What I miss is in the breeze

You are the breeze

I love the water

What I miss is in the water

You are the water

I love the life

What I miss is in the life

You are my life

I am possessed

What one I miss is my possession

Maybe you're still around

Maybe you could still be found

I love the life

What I miss is in the life

You are the life

And now I'm in distress

The one I want is my distraction

Maybe you're still around

Maybe you could still be found

What can I do or say

To see there's no holding back?
Seeing the old place reminds me
Maybe you're still around
Love the child
The child I kiss is in the man
You are the child
I am possessed
What I want is my possession
Maybe you're still around
Maybe you could still be found
What can I do or say
To see there's no holding you back?
Seeing the old place reminds me
Maybe you're still around
Maybe you're still around
Maybe you're still around
