"Little things"

Yeah, this song is dedicated (this is good charlotte) to every kid who ever got picked last in gym class (yeah, 1999)

This is for you

To every kid who never had a date to no school dance (2000 eternal)

This is for you

To everyone who's ever been called a freak (come with meeeee)

Here we, here we go

What? (y'all know what I'm talking about, y'all know what I'm saying)

Like the time in school when we got free lunch,

and the cool kids beat us up (reduced lunch)

and the rich kids had convertibles

and we had to ride the bus (55)

like the time we made the baseball team,

but they still laughed at us (you still suck)

like the time that girl broke up with me

cause I wasn't cool enough (Trip)

Chorus:

The little things,

little things they always hang around

the little things

little things they try to break me down

the little things

little things they just wont go away

the littles things

little things made me who i am today

Bridge:

you wanna hate me now

but I wont stop now cause

I can't stop now...

verse 2:

like the time mom went to that institue

cause she was breaking down

(I just can't take it)

like the car we had that wouldn't start we had to walk to
get around

(can I get a ride?)

and that same year on christmas eve

dad went to the store

(uhh..see you kids later)

we checked his room his things were gone

we didn't see him no more (dick)

Things... Things...

The little things,little things they always hang around

The little things,little things they try to break me down

The little things,little things they just won't go away

The little things, little things made me who I am today

You wanna hate me now

But I won't stop now, cause I can't stop now

Little things, little things,

little things, little things,

little things, little things,

little things, little things,

little things, little things,

little things, little things,

little things, little things,

little things.

Oooo... Oooo...

And I know that those little things they make the
biggest part of me break down

I'm breaking down

Break down

Gotta maintain
