I've heard about a place, where they enlarge yer space  
Don't cost ya very much, they seem to know their stuff,  
They take pity on the small ones...

So I wanna go to Brainville. Let's get in  
And overcome my inexperience  
I wanna go to Brainville. Let's get in  
And be the first one on the block that does.

They say it's the one thing everyone should have  
I know it must look bad.

I know I need the help  
They'd take me I can tell  
They take pity on the small ones...

I wanna go to Brainville. Let's get in  
And overcome my inexperience  
I wanna go to Brainville. Let's get in  
And be the first on the block that does.  
Da Da Da Da Da Da Da Da Da Da
