Hey
What were you thinking
When they were startin' the show
Yeah
I was there but I didn't care at all
I was trying to find you
When you got lost in the crowd
So drunk all the time
I'd like to hearing your voice

There was a guy
On the seat next to mine
Watching the girls
When the cops made us stand in line

Yeah
So if it's sad
Well, you still gotta live 'til you die
Man
Everyone's chewing the apple you've got in your eye
It's like at the circus
When you get lost in the crowd
You're happy but nervous
A definite sign that you've lost it

There was a guy
On the seat next to mine
Watching the girls
When the cops made us stand in line
