Magnified up close, in pickle jar
Is the last hope the world has... yeah... yeah

Thinkin' that his head surely would explode
His thoughts go deeper than ever... yeah... yeah

Something never dreamed in all the science books
The biggest light switch gets turned on... yeah... yeah

And he's on the way to a real first in all the universe...
yeah... yeah
He saves the day and the world knows, the sonic boom
explodes

Hesitant to tell the real reason, the Nobel Prize is
given... yeah
It's hard to celebrate with a headache... oh yeah... yeah

And he's on the way to the real first in all the universe...
yeah... yeah
And he saves the day and the world knows. Now watch
his head explode
