It overtakes me, it overtakes me
It overtakes me... oh oh oh I...
It overtakes me, it master/slaves me
It overtakes me... oh oh oh I...

It overtakes me, it overtakes me
It overtakes me... oh oh oh I...
It overtakes me, it wakes and bakes me
It overtakes me... oh oh oh I...

You know that it isn't real
You'll disappear in a black hole
You know that it isn't real
Floating out of control.... Oh wow

It overtakes me, it overtakes me
It overtakes me... oh oh oh I...
It overtakes me, it master/slaves me
It overtakes me... oh oh oh I...

And I'm there, looking up at the sky
And I'm scared, thinkin' 'bout the way that I
Don't understand anything at all...
And how it overtakes me... and I am just so small...
Do I stand a chance??
