oh god
has she always lived here?
(I think she has)
oh god
has she always looked like that?
(I think she has)

oh god
god, has she forgot me?
(I think she has)
oh god
has she joined the army?
(I think she has)

oh god
has she left here?
(I think she has)
in her grown up years
in her pilot years
(yes she has)
like she came from outerspace

oh god
has she turned queer?
(yes she has)
in her grown up years
in a pilot dream
(yes she has)
like she came from outer space

and now she's got helicopters
(yes she has)
repeat 5 times
