Who knows...
Maybe there isn't a vein of stars callin' out my name
They'll glow from above our heads
Nothin' there to see you down on your knees
25, 26, 27
Back from the future, maybe there ain't no Heaven
There's just you and me
Maybe that's all who's left
And if there ain't no Heaven
Maybe there ain't no hell

Who knows...
Maybe there isn't a vein of stars callin' out my name
Who knows...
Maybe there isn't a vein of stars callin' out my name
Who knows?
Who knows?

Who knows?
Who knows?

Callin' out my name
Who knows?
Who knows?

Callin' out my name...
