

Flaming Lips, The "What Is The Light?"

Visit "[What Is The Light?](#)" on MotoLyrics.com

What is the light
That you have
Shining all around you
Is it chemically derived

Cause if it's natural
Something glowing from inside
Shining all around you
It's potential has arrived

Looking into space
It surrounds you
Love is the place
That you're drawn to
Looking into space
It surrounds you
Love is that face
That you're drawn to

What is the light
That you have
Shining all around you
Is it chemically derived
