I want the world don't keep awake  
I want to give you peace  
I want to vindicates  
You need to be released

Don't wanna hurt you  
I need to make you see  
If I desert you  
It's just to make you see

That I'm a man that's weak  
And I'm a man that's a lost  
I give it all away  
It's complicate the cost

Don't wanna hurt you  
I need to make you see  
If I desert you  
It's just to make you see

Not gonna hurt you now  
I need to make you see  
If I desert you now  
It's just to make you see

I want you to be free  
I want you to be free from me  
I want you to be free  
I want you to be free from me  
I want you to be free  
I want you to be free from me  
I want you to be free  
I want you to be free from me  
Eh ahh
