When the winter was over  
She returned there to find him  
And her mem'ries filled her with light

She remembered the beauty  
She remembered desires  
And her memories filled her with light

I am the sun in the flame  
Cold from the flame turns away  
And in these winds came a change  
She awakes, aah

Sister walk through these fields of delight  
I want you to know  
Desperation's the tenderest trap  
So gently you go

What will it take?  
Sister awake  
Sister awake  
Sister  
Sister

When this beautiful cult of desire  
Has left you for dead  
Isolation will cradle the lies  
Of things left unsaid

What will it take?  
Sister awake  
Sister awake  
Sister  
Sister

And you'll look to the heavens above  
And taste it's deceit  
These temptations have blinded desires  
To sleep at their feet

What will it take?  
Sister awake

Sister awake  
Sister  
Sister  
Sister  
Sister

And you'll hear them call out your name  
Invoking the fates  
Chances are you've traveled too far  
In stirring their hate

So, what will it take?  
My sister awake  
Sister awake  
Sister awake  
Awake  
Awake
