"Come Closer"

Visit "[Come Closer](#)" on MotoLyrics.com

When I wake up in the morning
I feel emptiness all around
Another day to think about you
Without your love I'm drown
Now the time is right
Please spend the night
Make this love come true
You know I still love you

Come closer, come closer
Come closer, come closer

I remember special moments
We shared together
Next time we won't be so careless
Let me make it up to you
Now the time is right
Please spend the night
Make this love come true
You know I still love you
