arson poison diamonds speed,  
booze and drugs is all you need  
torture fortune money fun,  
bulletproof the skeleton  
shadow shotglass champagne dream,  
kiss the girls and make them scream  
fax it mail it fuck it up,  
fill your fucking paper cup  
oil water paper grime,  
dirt will swim and dirt will climb  
pipework metal plastic foam,  
shatter all things made of bone  
concrete black heat dead street star,  
take your passion way too far  
red blood white blood dead blood sells,  
auction knowledge, might as well  
shading color motion form,  
smiling dead red and stillborn  
mixture fixture one plus one,  
bulletproof the skeleton  
tax-break bone-break cock / your gun,  
protect your fucking skeleton
