"Hold On To Me"

we're the same and you don't even know it
we're afraid and we try not to show it and you're
tired and i am too so there's only one thing you
can do you've got to hold me and tell me what
you need don't be afraid of what you' re feeling
when you know me then i'll never want to leave
you just hold on to me when we're apart i still
feel together i still believe in a thing called
forever but we're drifting apart it's true and it's
breaking my heart in two we'll drive away where
no one can find us it's time to leave those dark
days behind us in my dreams it's always you so
there's only one thing we can do
