[Verse 1]

Young mutants, student survivors, embedded the earth  
The after birth of radiation came and deaded the church  
UFO roamin' the turf for text experiments  
Medical breakthrough, stomp my day with a shake of sedatives  
C.I.A., brain implants, connected intelligence  
Underground cities committed, infested with pestilence  
Tri-lateral's actual facts protected with medicine  
Closed sectors, we manifest food for the wounded veterans  
Constitution suspended, diseases growin' on leaves  
Panic attacks, the ozone close so we don't breath  
Fuck this faggots, they feeble and I ain't givin' them props  
Fuck the nazi, Illuminati and Mel Gibson's pops  
Rockin' BZ, chemical agents Kill Switch Engage  
The newest nerve gas since aerosol injected and sprayed  
The hottest craze, my hatred, I'm the Shaman of pain  
The greatest meltdown, pass the cloud, scowl and rain

[Hook]

The revolution won't be televised, we watch the plague  
The All in the sky, it turns red and burst into flames  
Death is certain, life's not, unstoppable pain  
It's earth rot, the beginning of the end, the last frame

[Verse 2]

It's game over, justice got stuck with the wind blown  
The fuckin' president, will never dig us out of this shit-hole  
200 billions dollars, Osama still eats and breathes  
Suicide mind for six in the cuff, flashin' on undergreens  
The duffel bag smashes all block to fuckin' smithereens  
Another blackout, they cracked the blueprint from the

Philippines

I knew in '93 that they'll be back for second

I never slept right, instead I ??? off for track records

Loopin' footage, I assume the hittid the same

I presume they will make a move, but they were slick  
with the place

A new face been raised and trained down in the  
Florida's sun

Tons of human flesh carressin' each other before they  
took the plunge

They put fear in my heart, but we was out to lunch

Reckon women, fathers, sisters, mother and sons

Teen martyrs, Allah told 'em to get us in 0-10

Under the sun, nuclear holocaust, it's the final end

[Hook]
