You give me direction
Still let me search for a goal
I need your affection
I need a little rock 'n' roll

Oh little honey
There's no one like you
Its just the way
You do the things you do

I catch a fire
Every single day
You lift me higher
In every single wat

Oh little honey

Nothing compares to you
Your good lovin'
It hurt so good

Baby I'm glad
That after all of this
We're still together
And the lovin' that we share
Is lovin' that will last forever

Oh little honey
There's no one like you
Its just the way
You do the things you do
Do the things you do
It hurts so good
