Take a seat boy you're acting like julio
I will be there laughing yeah just for show
don't it feel so low, don't it feel so?
full moon fever makes you feel incredible
no one home dear? not at least logical
don't it feel so low, with no place to go, don't it feel so
low?
I cut you once I cut you with me

I cut you once I cut you with me
Let it spin yeah round your head and round again
so she broke your heart boy all that's fat is now so thin
don't it feel so low, with no place to go, don't it feel so
low?
