You've got so many things going your way today  
but still you are lonely and noone listens to the things  
that  
you say  
depression is a lesson that you really gotta hold on to  
or is it fucked up anyway for you

You've got so many things to say but that wont help you  
anyway  
because you're messed up and you're lost in other  
peoples  
thoughts

Tough situation you believe that you're afraid of yourself  
you're looking around for directions and clues  
but you should look somewhere else  
cause somewhere inside you you can find the strength  
you are  
searching for  
or is it fucked up anyway for you

Do it for yourself today you have to find a way so do it  
for  
your self.
