### "Shake me"

Visit "[Shake me](#)" on MotoLyrics.com

I spend all the weekdays hangin' out with you  
I guess I haven't got a better thing to do  
you give me nothing though I'm happy all the time  
when the weekend comes you turn me down

You try to shake me

Do you remember when we were playing pool  
I was romantic and said you were a fool  
those are the moments that I really miss  
when I'm cool and you think I try to dis

I tried to hide my pain inside of me  
but when you came you made me feel real  
you made me feel like I really am  
god damn, now I'm loosing you just because I care

You are my headache, I don't wanna be alone  
When I'm lonely you make me write another song  
I think of you and all the things we've done  
who's the loser and who has won?
