Do you know about the Einstein crew?
Do you know what they do?
They're always drinking never thinking
just looking for someone they can take and beat down
they say they hate that guy, but when I ask howcome
they don't
know why
they're so damn full of hate, but do you think they're
smart enough to hate themselves too?
So now you got your crew behind and behind you even
left your
mind
come on and step to me.

Kick me and I'll kiss you back, after three six-packs,
hope it feels alright, before I get chance to ask you
why
you're so messed up....

Do you know about the Einstein crew?
I hope you do cause they hate you too, next they'll be
kicking
you
just because you're smarter then their whole crew
some of them where bugging me when I asked them
about the
history
do you really believe these guys they're stereotypes so
stereotype.
But who am I to say, who am I to judge
who would ever listen to a guy called Fudge.

The Einstein crew, I could be your role model,
one or to got their own pro-model, we feel sorry for
you,
you're one big problem and one day you'll be sorry to....
