My life, nothing was easy till now  
Hope like the morning will paint the dawn  
More than ordinary ( deep down )  
Make it more than merry ( deep down )  
Take me to the jamboree ( deep down )  
And shine a light on me  
Draw back the curtains and smile  
Everything's wow !

Girls are ten penny janet, joy and jenny, judy, joan and  
jackie g  
Hear me now I warn you  
Girls from california break your heart and set you free  
My life

Shame to rely, but I swear it's the best I can do  
Like a flame, like an I with a dot I am not you  
Call me guilty I swear I'm a man who can fly ( deep  
down )  
I keep coming back, I'll get back to you

My life, nothing was easy till now
