Right as rain
Right as rain
May baby you know you'll never love as right as rain
You can't run
And you can't hide
The way that you feel deep down inside
You need me baby
And I need you
Nobody knows who ever will do
Is right as rain
Is right as rain
Baby you love
Your love is right as rain
Sometimes when it rains
Comes falling down
You're gonna be ..
You gotta .. down
Sometimes baby
I need you to love a little rain
At least as the flower grow
Right as rain
Right as rain
Oh baby you know your love will grow as right as rain
The stronger the love
The stronger the pain
I am heading .. right as rain
Just like a storm baby out on the see
Just for me and you for me and you
You know .. are gonna shine ahead
You baby know our love is right as rain

Right as rain
Right as rain
Oh baby you know your love will grow as right as rain

Thanks to feel
