Took a long time to mend
Took a long time to make amends
Funny how the story goes
Strip a man bare and burn his clothes

Time is all i crave
It comes in waves
I will be here until i drown

System's on overload
Goes to bed warm but wakes up cold
What a bloody cross to bare
Time on my hands but i don't care

Days are all the same
They wax and wane
I will be here until i drown

Time is all i crave
It comes in waves
I will be here until i drown

Days are all the same
They wax and wane
I will be here until i drown

Time is all i crave
It comes in waves
I will be here until i drown
