Whatcha gonna choose the poison or the lines
Lived with crazy pain in all your life
Something in your mind just tells you no
Hope in conversation starts to flow

Stuck inside a wheel, inside a wheel
Wondering everyday is it all for real
Blinking every time a cold wind blow
Our love don't fill a mile in rose

Danger remains

Watcha gonna do when the old man reads you dry
Step down from the plane and pluck the eye
Slide in deeper closer to the bone
Don't you just wish your heart was made of stone?

Waxing like an old crack 45
Counting out the ways you could stay alive
Placing all the banks and feel the stones
My love won't leave her ways of foam

And when you think it's all over
It's not over, it's not over
And when you think it's all over
It's not over, it's not over
And when you think it's all over
It's not over, it's not over

Who killed tangerine?
The prettiest girl I've ever seen
Who killed tangerine?

Who killed tangerine?
The prettiest girl I've ever seen
Who killed tangerine?

And when you think it's all over
It's not over, it's not over
And when you think it's all over
It's not over, it's not over

And when you think it's all over
It's not over, it's not over
