Break it down again

So those are my dreams
And these are my eyes
Stand tall like a man
Head strong like a horse

When it's all mixed up
Better break it down
In the world of secrets
In the world of sound

It's in the way you're always hiding from the light
See for yourself you have been sitting on a time bomb
No revolution maybe someone somewhere else
Could show you something new about you and your
inner song

And all the love and all in love in the world
Won't stop the rain from falling waste seeping
underground
Break it down again, I want to break it down
Break it down again, break it down again

So these are my schemes
And these are my plans
Hot tips for the boys
Fresh news from the force

When it's all mixed up
Better break it down
In the world of silence
In the world of sound

"No sleep for dreaming," say the architects of life
Big bouncing babies, bread and butter can I have a
slice?
They make no mention of the beauty of decay
Blue, yellow, pink umbrella save it for a rainy day

And all the love and all in love in the world
Won't stop the rain from falling waste seeping

underground
Break it down again, I want to break it down
Break it down again

Horsin' around, pray to the power
Play to the crowd with your big hit sound
And they won't simmer, won't simmer, won't simmer
down
Play to the crowd, play to the crowd, play

It's in the way you're always hiding from the light
Fast off to Heaven just like Moses on a motorbike
No revolution maybe someone somewhere else
Could show you something new to help you
With the ups and downs

Break it down again, I want to break it down
Break it down again, break it down again
Break it down again, break it down again

Break it down again, no more sleepy dreaming
No more building up it is time to dissolve
Break it down it again, no more sleepy dreaming
