Say what you want
Say what you want
Say what you will
Say what you want
Say what you want
Say what you will

'Cause I find
You think, what makes it easier?
And I find
You think, what makes it easier?

Say what you want
Say what you want
Say what you will
Say what you want
Say what you want
Say what you will

'Cause I find
You think, what makes it easier?
And I find
You think, what makes it easier?

And lies spread on lies
We don't care
Belief is our relief
We don't care

'Cause I find
You think, what makes it easier?
And I find
You think, what makes it easier?

And lies spread on lies
We don't care
Belief is our relief
We don't care
