[INTRO:]

Ooh yeah  
Now word is out  
The word is out  
Innocence  
Word is out  
Over town

Now the word is out  
Word is out  
Now the word is out  
The word is out

[1:]

You're clinging to a lie  
Still you hope to try  
And save your face, ooh  
It's a no-win situation  
There ain't gonna be a saving grace

Because you're sticking to a story  
It really makes no sense  
No judge or jury could ignore the evidence

[CHORUS:]

Because the word is out  
I can't go on believing in your innocence  
Now the word is out (the word is out)  
The word is out  
You can't go on pretending  
It's all over town  
Now the word is out (the word is out)

[2:]

Ain't but one redeeming feature  
So you may as well accept your fate  
(Accept your fate), ooh  
You can't wriggle out of this, it's gone too far  
It's much too late (it's much too late)

But it's funny my suspicions lead me to the lie

From the friend of a so-called friend  
I heard about your double life

[CHORUS:]

Ooh yeah  
Because the word is out  
Can't go on pretending  
Innocence  
The word is out  
The word is out  
Yeah  
Over town  
Now the word is out (the word is out)  
It's all over town

[CHORUS:]  
[repeat & fade]
