You've got to move it to the rhythm
You've got to move it to the rhythm

We oughta really get it on, get it on, get it on
We gotta get it on
We really got it goin' on, goin' on, goin' on
We got it goin' on

Move your feet to the beat and keep on
Too heater than sweet to sleep on
So you go on and on, all night long
Till dawn, you can't get it wrong

You just move around like you really don't care
Hands in the air and keep 'em there
Side to side you just let 'em sway
Through the day, let the music play

Hear the rhythm, move to the pace
Get to the bass and shake up the place
It don't matter what you are doin'
It's how you do it and how you flowin'

So keep on goin' for a while
Keep 'em goin' into the style
I took the hook that everybody done grinnin'
Now look at your body, move to the rhythm

You've got to move it to the rhythm
You've got to move it to the beat
You've got to move it to the rhythm
You've got to stomp your feet to the beat

Move it to the rhythm
You've got to move it to the beat
You've got to move it to the rhythm
You've got to move your feet, pump that beat

We oughta really get it on, get it on, get it on
We gotta get it on
We really got it goin' on, goin' on, goin' on
We got it goin' on

Move to the rhythm, groove with the flow
You know how it goes, now what you got to show
Pump it up like it ain't nothing
Jump around to the sound we bring

And you can't miss the count or lose the beat
You do it all the time, you don't stop your feet
Move it to the rhythm of the song
Everybody party once along

Get on the floor where the action is
You can get on down about your business
When I'm old I hope to be sold
The truth's unfold and the stories told

If you're willing to say no more
Get down for shockin' and rockin' the floor
Move it to the rhythm, groove with the flow
You know what you got to show, now let's go

You've got to move it to the rhythm
You've got to move it to the beat
You've got to move it to the rhythm
You've got to stomp your feet to the beat

Move it to the rhythm
You've got to move it to the beat
You've got to move it to the rhythm
You've got to move your feet, pump that beat

Oh, oh, oh yeah, oh, oh, oh yeah
Move it to the rhythm
Oh, oh, oh yeah, oh, oh, oh yeah
Move it to the rhythm

Oh, oh, oh yeah, oh, oh, oh yeah
Move it to the rhythm
Oh, oh, oh yeah, oh, oh, oh yeah
Move it to the rhythm
