"Oasis"

Whenever dreams seem out of reach
Love is far away
Loneliness is all I have to hold
Whenever hope is out of time
The picture's so unclear
I stumble tryin' to find the light of day

Take me away to the oasis
I wanna be with You in quiet places
Your face is all I ever want to see
Take me away, say that You love me
I need to be with You and with You only
You're Holy
That is what I want to be

Whenever I replay the past
And listen to my fears
Tell myself I'll never be forgiven
That's when You come erase my doubts
Drive away my tears
I just say the word and You reach down again
