"Does Your Cat Have A Mustache?"

Visit "[Does Your Cat Have A Mustache?](#)" on MotoLyrics.com

I want it all
Even the raindrops won't fall in my way
I'm parting the seas
I'm setting the standard for living a dream
By staying awake
And counting the days
I'm falling in love by the side of the road

Mrs. Math do you always count to thirteen?
Holding sunsets
Voting on pieces of string
Wishy-wash, tabletop, one, two, three
Does your cat have a mustache?
Does it remind you of me?

I want it all
Even for me the autumn leaves stay green
And all of the clams that is holding your hand
Could never, ever take the place all like me
But now forget the time
It's a crime
That the pearl
Of a girl
Has been waiting to be set free...

Mrs. Math do you always count to thirteen?
Holding sunsets
Voting on pieces of string
Wishy-wash, tabletop, one, two, three
Well, does your cat have a mustache?
Does it remind you of your cat with a mustache?
Does it remind you of...

The ships that sail towards the west
The largest guard the treasure chest
The water never harms the mast
It's the clouds that fool the sun to set

One, two, three four!

(The ships that sail towards the west

The largest guard the treasure chest
The water never harms the mast
It's the clouds that fool the sun to set)

Cover your eyes
Try and walk a straight line
I dare you, the darkness is robbing us blind
And although I can't see your heart
I can still hear it beat from your breast
It's like a lighthouse
It's like a lighthouse

I'm gonna find you
I'm gonna find you
I'm gonna find you
I'm gonna find you
All right

I'm gonna find you
I'm gonna find you
I'm gonna find you
I'm gonna find you

I'm gonna find you
