Presume upon god's misery
Bring forth the majesty
Be emotionally prepared
Arise - sickness - arise...

See birth prevail - embrace him
Welcome the eclipse within
See the invisible walls drenched
With the blood of his eternity

Scream for the beast
See his world reign
Scream for the beast
As he devours your pain

A psychological disease
Your world - his world
Counteracts the will
Your fear - his pleasue

[Lead: Persson]

As you awake from the slumber
Memories fade in darkness
Blinded by invisible walls
You await to embrace the dusk

The victims cries released
By your minds fury
Your lust - his instincts
The beasts paradise - god's hell

Scream for the beast
See his world reign
Scream for the beast
As he devours your pain

[Lead: Holm]

Inseminated by the beast
Your flesh is his to control

The mind has become enslaved
An absurd theatre from which he feeds
No hope - no escape
The trigger in your mind is released

Monstrous desires reveal
The collapse in barriers of sanity

As your victims beg for mercy
Your grim laughter echoes
Sickness is now one with the mind
Brutalized - sodomized - buried

Scream for the beast
See his world reign
Scream for the beast
As he devours your pain

A psychological disease
Completed and fulfilled
Your will has become the machine
Of his pleasure - your pleasure
Your pleasure...
