I am walking down the street, as time's standing still  
The sky is crying on my feet, reflecting what I feel  
I lift up my head, recalling when you kissed me  
goodbye  
The price to be paid, before we'll meet by and by

Despite the distance and time  
Our hearts beating at the same pace  
Without reason or rhyme  
Found each other at the same place

You promised me to wait,  
promised you won't be late  
Now I am counting the days  
Praying that time will fly away

Well I guess this is you  
I've been waiting for  
Without I even knew  
I said no  
Nothing feels like before  
Don't want to lose you anymore

And still the rain keeps running deeply through my  
veins  
Drenching our memories  
And still your love keeps flowing in my blood  
Bringing back your memories

Clouds are clearing up  
Chasing away the rainy night  
Now I can see your face in a close up  
Drawn by the sunlight

Like every star I see now  
You're shining when it's so dark  
Like the sun waiting for tomorrow  
Our love will find again its glowing mark

Well I guess this is you  
I've been waiting for

Without I even knew  
I said no  
Nothing feels like before  
Don't want to lose you anymore

And still the rain keeps running deeply through my  
veins  
Drenching our memories  
And still your love keeps flowing in my blood  
Bringing back your memories
