Verse 1 (Stephen the Levite):

I remember before my church started
A season that I called the darkness
Saved but still living in bondage
Not know the problem was not just my pride and lust,
but that life was so autonomous
But at Epiphany I had an epiphany
Realizing community was the way it was meant to be
WHY?
In the beginning He who gave us identity was,
eternally, co-existing as the Trinity
Saying
It's not good for man to be alone
It's impossible for him to model us on his own
He gave man a companion not a clone
Commanding reproduction, expansion, and a throne
And now
The new Adam is starting it all over
Sparking it with bride who glorifies Jehovah
Submit
You wanna know who you are then know your role cuz
Your ID's in Christ and Christ is part of a whole bruh

Hook:

Back back them church boys are back
Oh!
That's that the new life is that
Oh!
FOTU with my crew till He comes back
Oh!
Live in community
Walk in community
Back back them church boys are back
Hey!
That's that the new life is that
Hey!
FOTU with my crew till He comes back
Hey!
Live in community
Walk in community

Verse 2 (Sho Baraka):

Before Real Talk were Ambassadors chopping
Up that milk and meat, having all things in common
Before church planting was an option
Before the albums start dropping
We were in community stomping
Patience with your boy when I was loud and obnoxious
Before I turned my life up in at a concert
Before I learned the truth over nonsense
Before I hit a stage they were caution
Accountability, yeah awesome not produce a man
selfish or pompous
Know the process of Learning the scriptures in its
context
Bible study sometime it made me nauseous
But know I never grow sick of spitting up those
synoptics
Constantly keeping others upon my conscious
Being honest not just robbing them of their knowledge
Promise to serve one another in righteous conduct
Its common sense I'm something like a communist.

Hook:

Back back them church boys are back

Oh!

That's that the new life is that

Oh!

FOTU with my crew till He comes back

Oh!

Live in community

Walk in community

Back back them church boys are back

Hey!

That's that the new life is that

Hey!

FOTU with my crew till He comes back

Hey!

Live in community

Walk in community

Verse 3 (Tedashii):

Give me a sec just to put it in perspect

He's God

And He deserves more than just your check

He deserves your breath

Every one you'll ever get

We deserve death

Something (by grace) we'll never get

So, hands

, devoted

, cause He rose and beat death

We could be right handed but we all went left

See in order to redeem me He gave up Himself
So I'm laying on the alter till they lay me to rest
What you expect
Man we give God our best
Plus,
Knowing Him, is how we know our, self
So,
We learn of Him in the way that He set
Up, so we can get it
Christian fellowship
As I imitate God and conform more to Christ
In the bond of community
I look more like
Him (Him), Him (Him), and the image I was meant to
have
Praise God for the Church
Showing me just me who I am

Hook:

Back back them church boys are back
Oh!
That's that the new life is that
Oh!
FOTU with my crew till He comes back
Oh!
Live in community
Walk in community
Back back them church boys are back
Hey!
That's that the new life is that
Hey!
FOTU with my crew till He comes back
Hey!
Live in community
Walk in community
