At the station with hand-picked flowers  
We'll take the long way home so we can talk for hours  
Tellin' you a story, make you smile  
'Cause the way you look at me when I do makes it all  
worthwhile

Look around, break it down, and you'll understand

I know you inside and out  
I know, when it counts, what you're all about  
What's on your mind, what's on your lips  
Who in the world loves you better than, better than  
this?

In the morning before you go  
You're lyin' next to me, it's all I need to know  
Listen to your footsteps in the hall  
It's a wonder when you come back and kiss me I can  
breathe at all

Look around, break it down, and you'll understand

I know you inside and out  
I know, when it counts, what you're all about  
What's on your mind, what's on your lips  
Who in the world loves you better than, better than  
this?

I wandered far and wide  
But never thought that I  
Would find someone like you, no  
But then you pulled me up  
Showed me a brand new love  
Now I understand...

Leavin' notes up on the fridge for me  
You remember all of the little things  
You're the reason I know it'll be alright  
I can't wait to tell you again when I see you tonight

Look around, break it down, and you'll understand

I know you inside and out  
I know, when it counts, what you're all about  
What's on your mind, what's on your lips  
Who in the world loves you better than, better than  
this?
