This here's a tale for all you people
Sick of titanic blockbusting Dr. Evils
It's a throwback to a time
Of milk and cookies and stories told at bedtime
Before Sega Genesis was where it's at
There was a primate and a man with a yellow hat

George--he's curious
George--the neighbors are furious
George--for all his mistakes he was a cute little monkey
George--come on fellas, it's time to get funky

A small step and a giant leap,
And I pray Neil Armstrong's soul to keep
But in a space race to keep the pace
You need much more than one hole with one ace
Enter one curious volunteer
With a cute space suit and a big smile from ear to ear
With no thought of the harm it might bring,
George hit space like it ain't no thing
Pulling no punches, losing no lunches
Cool in the clutch, tough in the crunch it's

George--he's curious
George--the Russians are furious
George--when he goes dancing he get's funky
George--come on ya'll, give it up for the monkey
George!
