Wendy, Wendy, where have you been
I've been looking for someone like you
Wendy, Wendy, come on inside
I wanna make you mine
So won't you stay for a while

I still remember the very first time
When I looked into your big brown eyes
It's still a feeling I can't describe
Now I'm wondering what it might take to make you
mine, Wendy

Wendy, Wendy, where have you been
I've been looking for someone like you
Wendy, Wendy, come on inside
I wanna make you mine
So won't you stay for a while

I wake up every morning thinking about your pretty
face
Wondering what is that makes me feel this way
Might be the way you look at me or the way you call my
name, girl
I don't know what you have done but I'm never gonna
be the same, oh Wendy

Wendy, Wendy, where have you been
I've been looking for someone like you
Wendy, Wendy, come on inside
I wanna make you mine
So won't you stay for a while

(repeat chorus)
