Humm, humm humm ...  
Flash light in the dark of night,  
Laissez faire devil may care quick silver,  
The feline breed your ego feed,  
I'm a tease if you please an infuser,  
Oh but you know 'bout the juju,  
I coluded with the lucid a creator,  
Come to my place for some good taste,  
Rise the amorous to the rapturous alligator,  
Hum humm humm ...  
If you please,  
Call for me by humming this tune,  
I only come when there's a full moon,  
Ruby red lips painted finger tips,  
Make your sweet heart cry and your best friends try,  
Facinate like a temptress the caress,  
Leaves you languishing exhilarate,  
A tornado if you say so,  
And I shake like a quake captivate,  
Humm humm humm ...  
Call for me by humming this tune,  
I only come when there's a full moon.
