How many days can you live, waiting, just plain
hanging on.
Being with you is like head banging on pavement.
Calling the shots, you break hearts, im surprises I sleep
at all
How do you plan to explain?

All we ever get is one, im not gunna give it up
You only get one shot, not listening at all
Somebody do something , somebody do something
Somebody do something, otherwise, I could die. I could
die.
Nanananananannananana

Suddenly fixing is blown over and I see where youre
going
could I fuss over with no hope?
,,, in my hands, â€¡that'd shed be safe and sound
You have a plan to explain.

Do you care about the things you love, hoping that
they'll never bring you down?
And the follow through you have busted up another
man is a game you have in store youre the keeper of
this score, uhhuh
You only get is one, you're not listening at all,
You only get one, im not gunna give it up
Somebody do something , somebody do something
Somebody do something, oooh
