[Spoken]

Up the stairs and into the world

Welcome, Welcome, Welcome

[/Spoken]

We take off from here

We don't need to know where

We'll throw out our maps

Cause they just lead to nowhere

But let's take this chance

Just me and you

Let's go!

ooh-ooh

Let's go!

ooh-ooh

Let's go!

ooh-ooh

ooh-ooh

Let's go now

Let us go now

Well unlock your doors

And roll down every window

Breathe in, breathe out

We're supposed to be here now

Let's not bury our fears

With our bones

It's me and you

Let's go!

ooh-ooh

Let's go!

ooh-ooh

Let's go!

ooh-ooh

ooh-ooh

Let's go now

Let us go now

I'm wide awake now

Under the stars and clouds
Next to the trees and flowers
It's our time now

Bum-bum-bum
Ooh

Let's go leave our worries behind
Let's go!
Let's go leave our worries behind
Let's go
Let's go leave our worried behind
Let's go
Let's go leave our worried behind
Let's go
Let's go leave our worried behind
Leave our worries behind
