Spitz & Odario]

Yeah yeah yeah

Yeah yeah

REPEAT 7X

[Odario] {Spitz}

Buckle up and come ride with us

The providers of the F U N K

With underground status I can do this my way

Let my rhyme pay {O.K}

No way today's a new day {a new day}

I come to do my thing make it happen man

You'll never catch me slacking like them boys up at
????

When they bite insight that's made to excite

If you're sitting in my brain, then I wouldn't have to
explain

My occupation is stricter communication

I dedicate to the world that I be facing

That is the key to unlock new melodies like felonies,
jump off it

Style more rapid than bounce in Texas

Keep your remixes kid

Want to get with this ????

As if you were an addict, a rhyming fanatic

I keep my hip-hop just like it was mathematics

And study what you come with

We getting live with this underground function

We getting live with it

{Spitz} [Odario]

Who's the one you're trusting?

I bring the rock with spontaneous combustion

Spit so much my microphone be rusting

Induction to the hall of fame

Your designated hit come to sharpen up his game

Most styles is playing with the grain

I'll mentally expand it, explore new terrain

What's your name? [Odario, the day dream fiend]

What's your function? [I dedicate my life to this dream]

What's that mean? [I'll leave my mark on the scene]

[Cutting off dead ends just like I had gangreen]

Well, let's see, my team be out promoting the green

I get two for one rappers, every coupon redeemed

Haven't hit the mainstream

But when it happens, guaranteed satisfaction

Making moves while crews be relaxing

Interaction, let them crowd participation

Sketch be cutting up the wax-in

Vocally dispatching the words from the wise

And I advise you not to compromise your intention
Hangin in suspense makes you wonder what's next
Hypnotized by the flow, lost up in the vortex
Respects, due to all the night life types
Dedicated to the art, keeping hip-hop tight
Dispite, a system trying to hold us down
But Imma keep banging, can't stop this sound

[Spitz & Odario]

Yeah, yeah, yeah

yeah, yeah

REPEAT 4X

[Odario]

New style on the planet, let's make it work
Get your camera, the planet will hit the dirt
Dos D(?) coming in like an alien
Recognize my composure, no comparison
Hope you're not fearing
But feeling, my spirit is appealling
We rock rhymes while you're dancing on the ceiling
The underground roof tops
Kid you never miss a second unless you intox -- icated
Never faded, plus I will never endorse soap
I'll make your backbone slide and rock your torso
As for the bro with the vertebrae that's on a roll
Pick it up and keep it moving like you Soul II Soul

No doubt clought, you know we keep it tight

No need for light, 'cause we wild for the night

{Spitz}

Intense ???? of events today get me stressed

I need to release to get them ***** off my chest

Careless, who's impressed by the gimmicks

I'll get inside your head, push your mental to the limits
and witness

Lay down on the line, we'll rise to the occasion

Full scale invasion, pin point your location

Drop a bomb, incineration

Confirmation of your status been completed

No longer a ??? you been deleted

You well depleted, defeated becuase you played
yourself

Ignorance is bad for your health

I moving in stealth, undetected flows

Resurrected, injected directly into your brain 'til
infected

You can't deflect it, these beats that we selected

Even if you're not down, you must respect it

[Odario] {Spitz}

I'm off to the Fort Knox to knock down the door

Steal from the rich and give to the poor

Rap whore, never stop what I'm doing

Next time you see me, you know that I'm pursuing

My career, swing never miss

Coming swift like a fist in a rage catch my drift
With the one {Spitz the designated hit}
{Alais Maxmo, I'll leave a mark and then split *echo*}
So catch me if you can
My man and I, we making moves like it's nothing
The task you use is like the start of your ending
No bluffing, we are the laid back of Mood Ruff-in
Let me tell you something
We entice, to make it nice
I blow the door up in the sky
Better get your own to make some pie
Sweet potato, be an innovator
Make your way up to the top like double deckers
And I'll catch you later
