INTRO: [Odario talking]

Midnight strikes so the night begins. You know how we
do musicians DJs
on a mission the MCs take the stage have a listen.
Midnight strikes so
the night begins. You know how we do musicians DJs on
a mission the MCs
take the stage have a listen. Have a listen have a listen.
The ill flows
you know what I'm saying. This is what's the music's all
about. It's the
feeling, that vibe, you know what I mean. I mean you
could do the
turntables and you could do the live instruments and
it's all good. It's
the MCs and the DJs, you know.

CHORUS: [Odario]

Waiting for the sun
To fall under the planet
And the underground rises
Some can't understand it
Waiting for the sun
To fall under the planet
And the underground rises
Some can't understand it
[All] We like to party

[Odario]

The place I love the sun don't shine
Fine, mighty fine hold your piece of mine
We rise above, whole stress of life
Getting nothing but love all through the night
Do you feel alright? The night life is nice under moon
light
So do that dance, don't pass the chance
Enhance your mood, move in the trance
We doing it up like nothing at all
Been doing it up since the day I crawl

Show me what you got, when the spot get hot
My crew could make your body rock
Like the new Kung Gu, no matter what yo do
If you my boy, then I'll see you through
I'll see you through, I'll see you through
If you my boy, then I'll see you through
[Spitz]
Blue nights from black, night life reacts
We on a natural high wne we see the moon reflect
Interact with my peoples 'cause they know where I'm at
B.I., Lucci, chilling at Moca Jacks
Into the music searching for artifacts
Working so hard lately I'm feeling taxed
So when I'm on my own time it fels good to relax
Counteract all the negative vibes that I collect
Redirect into positive vibes to sound phat
Where ya at? Sleeping on me? Never that
I collect porops everytime I bless a track
The Hummers got my back to sounds that knock you
out
Remember that, next time Spitz is up to bat
I don't bunt, I connect, WHAT?
I don't front, I catch wreck
Reflect on the fact that we got the knack
And we on the right track
Critical and crucial, be precise and exact
Hip hop is ruthless, will cut you no slack
So if you're going to jack, believe it's wack
People can see that, lack of eye contact
Squeeze the cardiac when we in combat
Watch ya freak out like claustrophobic
Getting hard to breath 'cause the party's so packed
And you know where we're at

CHORUS: [Odario]
Waiting for the sun
To fall under the planet (where my boys at?)
And the underground rises
Some can't understand it
Waiting for the sun
To fall under the planet
And the underground rises
Some can't understand it
[All] We like to party

(Hummers solo)

CHORUS: [Odario]
Waiting for the sun, to fall under the planet
And the underground rises
Some can't understand it

Waiting for the sun, to fall under the planet
And the underground rises
Some can't understand it
[All] We like to party

[Odario]
On and on and on and on
We going on and on and on and on, word

(Hummers solo)
