Head-lights, swirving cars, white man chasing ghosts,  
bleeding my heart,  
City smog feels your eyes,  
let me catch the words that spill from your mind.  
You're gonna be alright.

Cross my heart, hope to die, you're my oxygen, I'm  
alive,  
Cross my heart, hope to die, you're my oxygen, I'm  
alive.

Say a prayer in your room for the friends that you once  
knew,  
To that person that you wanna be.  
Hold your breath (hold your breath) for the sun (for the  
sun),  
But the clouds are all we've got, now it's better, just like  
before.  
And it's nothing else more.

[Chorus]

Say a prayer for yourselves and a love that we leave  
behind,  
Save that look while it lasts, coz it might not come  
again.

[Chorus]
